

To update Skoda Maps for Skoda Karoq Admunsen Infotainment

(1) Google - Skoda Portal

(2) Enter Vin number of vehicle and click search

(3) If update available scroll to find correct map (check your SD card folder wrong map won't work)

(4) Most SD cards supplied with vehicle are only 14GB unless yours is 32GB

Go to stage (7) before doing anything

(5) Select your map and click on download , might take some time depending on your broadband speed.

(6) This download is a zip file so **don't unpack** until you have unlocked your SD card take a note of file name so you can find it again.

(7) Make a backup copy of your SD card onto PC

(8) Keep SD card in PC and then unpack zip file make destination the SD card .

(9) This can take some time again depending on speed of computer.

(10) Unmount SD card when finished and put into No 1 SD slot in car and behold job done.
